Digital...The New Technology!

Our **goal** is attracting booth traffic by creating something the attendee's want.

Your **benefit** is that they will remember you for giving it to them.

If you have interest in any **photoproduct**, we can produce it. In our 30 years of service to exhibitors, we have been asked to make Magazine covers with the attendee's images, photo buttons, photo ID tags for luggage, Polaroid photos, party candid and exhibit booth photo displays. Would you like us to record complete client ID information when we make our photos?

Here is what's New:

Hollywood made the **Green Screen**. Digital made it **portable**.

Attendees are photographed in front of a green background. Digitally this green background is replaced with any scene you might want. Image overlays can be placed in front of the subjects to add dimension and text. Digitally we can transport your client to any environment that would be meaningful to your company and your client.

Are you having a **Celebrity Event?**

Will you be meeting in Washington and your client would like to be photographed at the White house? Will you be at a Disney Park and your client would like to be seen with Mickey Mouse? Do you have a celebrity that your clients would like to show others that they meet? Will you have an astronaut to shake hands with your

client in front of our digital space capsule? Is a sports personality available? Is a Hollywood look-a-like in your plans with a meaningful background? We can work out something special for you.

Would an **Elegant Portrait** be helpful?

Will you have a reception and want to give each guest or couple a portrait? We can create any scene from an old masters portrait background to the Queen Mary Grand Salon. We can have a print ready on location or your representative can present it at a later date. We can even make a digital file and present it on location. Did I mention that your logo, event title or message could be added to any of our images?

Do you sponsor a **Golf Tournament?**

We can provide foursome photos with prints on location. We can do this at a golf course or in a hotel. Our Digital photography equipment can capture your client's images in many unique ways.

You tell us how we might support and increase your booth traffic with photography!
