

ASNR 2008 Program Chair/President-Elect
Robert D. Zimmerman, MD, FACR

Programming developed in cooperation with the...

American Society of Functional Neuroradiology (ASFNR)
Jay J. Pillai, MD, Functional Representative

American Society of Head and Neck Radiology (ASHNR)
Edward E. Kassel, MD, Head and Neck Representative

American Society of Interventional and Therapeutic Neuroradiology (ASITN)
Robert W. Tarr, MD, Interventional Representative

American Society of Pediatric Neuroradiology (ASPNR)
Jill V. Hunter, MD, Pediatric Representative

American Society of Spine Radiology (ASSR)
Erin Simon Schwartz, MD, Spine Representative

To request programming and registration materials
for the ASNR 46th Annual Meeting contact:

ASNR 46th Annual Meeting | Phone: 630-574-0220
c/o American Society of Neuroradiology | Fax: 630-574-1740
2210 Midwest Road, Suite 207 | Email: meetings@asnr.org
Oak Brook, Illinois 60523-8205 | Website: www.asnr.org/2008

Future Radiological Society Meetings

American Society of Head and
Neck Radiology (ASHNR)
September 26 – 30, 2007 • 41st Annual Meeting
The Fairmont Olympic Hotel • Seattle, Washington

American Society of Interventional
and Therapeutic Neuroradiology (ASITN)
July 30 – August 3, 2007 • 4th Annual ASITN Course and Workshops
St. Regis Monarch Beach Resort • Dana Point, California

American Society of Spine Radiology (ASSR)
February 21 – 24, 2008 • 2008 Annual Symposium
Renaissance Esmeralda Resort and Spa • Indian Wells, California

Eastern Neuroradiological Society (ENRS)
August 23-25, 2007 • Nineteenth Annual Meeting
Stoweflake Resort & Conference Center • Stowe, Vermont

Southeastern Neuroradiological Society (SENRS)
October 25 - 27, 2007 - 31st Annual Meeting
The Westin at Our Lucaya Beach and Golf Resort • Freeport, Grand Bahama Islands

Western Neuroradiological Society (WNRS)
October 4 – 7, 2007 • 39th Annual Meeting
Sheraton Vancouver Wall Centre Hotel • Vancouver, BC, Canada

New Orleans

May 31 - June 5, 2008
Ernest N. Morial Convention Center
New Orleans, Louisiana

ASNR 46th Annual Meeting

The Executive Committee of the ASNR invites you to the 46th Annual Meeting, May 31 - June 5, 2008, an event that features an historic location and an excellent educational program. Our meeting venue is the Morial Convention Center, boasting a \$60 million full restoration and renovation and conveniently located near the Hilton New Orleans Riverside Hotel, the meeting headquarter's hotel.

NER Foundation Symposium 2008: Emergency Neuroradiology

The NER Foundation Symposium will focus on current, new and future developments in imaging of patients presenting to the Emergency Department with acute neurologic disorders. Increased demand for and utilization of routine and cutting-edge imaging has dramatically altered the practice of neuroradiology.

The 2008 Symposium will focus on the imaging findings of emergent diseases as well as practical challenges in implementing an emergency neuroradiology service. Issues to be discussed include the provision of expert interpretations "24/7" and post-processing of studies such as "whole body" trauma CT, CTA/CTP and MRA/MRP. Therapeutic advances will continue to drive the need for ever more sophisticated imaging techniques and therefore emerging treatments for infarction, trauma and subarachnoid hemorrhage will be presented.

Plan to attend the NER Foundation Symposium 2008 in New Orleans... The Program Committee promises to present cutting-edge material that is both practical and applicable for many radiology practices.

Sincerely,

Robert D. Zimmerman, MD, FACR
ASNR 2008 Program Chair/President-Elect

New Orleans

ASNR 2008

NER Foundation Symposium 2008: Neuroradiology in the Emergency Department

Saturday, May 31 - Sunday, June 1, 2008

Preliminary session topics include:

- ✿ Developing an Emergency Neuroradiology Service
- ✿ Dose reduction in pediatric patients undergoing emergent CT scans
- ✿ Post-processing of imaging studies including spine and cervical cerebral vessels from "whole body" CT, CTA/CTP and MRA/MRP
- ✿ Imaging of head and neck emergencies in children and adults
- ✿ Imaging of unstable spine injuries
- ✿ Imaging and future therapeutic advances of spinal cord injury
- ✿ Use of multi-modal CT and MR in the diagnosis of acute infarction and subarachnoid hemorrhage
- ✿ Imaging of head trauma with emphasis on emerging treatment options

At the conclusion of the Symposium attendees will be able to:

- 1) Identify imaging abnormalities in adult and pediatric patients presenting to the Emergency Department with traumatic and non-traumatic abnormalities of the Head and Neck, Spine and Brain;
- 2) Identify resources (e.g. technologists, nurses, post-processing equipment and personnel) needed to implement an emergency neuroradiology service;
- 3) Implement protocols for using screening trauma CT data to generate diagnostic studies of the spine and cerebrovascular system;
- 4) Compare the relative merits of multi-modal CT and MR for assessment of acute infarction and subarachnoid hemorrhage;
- 5) Plan effectively for the future based on knowledge of emerging therapies and the imaging techniques that will be required for their use

ASNR 46th Annual Meeting Schedule

June 2 - 5, 2008

Monday, June 2

- Scientific and Educational Programming: Pediatrics, General Neuroradiology, and Head and Neck
- Proposed Self Assessment Modules (SAM) Session(s)
- Maintenance of Certification (MOC) Review Update Sessions
- How-To Sessions
- Scientific Exhibits and Scientific Posters
- Electronic Learning Center (ELC) Programming

Tuesday, June 3

- Scientific and Educational Programming: Functional, Pediatrics, General Neuroradiology, and Head and Neck
- Proposed Self Assessment Modules (SAM) Session(s)
- Maintenance of Certification (MOC) Review Update Sessions
- Electronic Learning Center (ELC) Programming
- How-To Sessions
- Scientific Exhibits and Scientific Posters
- Technical Exhibition

Wednesday, June 4

- Scientific and Educational Programming: Interventional, Functional, General Neuroradiology, and Spine
- Proposed Self Assessment Modules (SAM) Session(s)
- Maintenance of Certification (MOC) Review Update Sessions
- Electronic Learning Center (ELC) Programming
- How-To Sessions
- Scientific Exhibits and Scientific Posters
- Technical Exhibition

Thursday, June 5

- Scientific and Educational Programming: Interventional, General Neuroradiology, and Spine
- Proposed Self Assessment Modules (SAM) Session(s)
- Maintenance of Certification (MOC) Review Update Sessions
- How-To Sessions
- Scientific Exhibits and Scientific Posters
- Technical Exhibition
