Bracco Diagnostics Inc. Booth #218

Phone: (609) 514-2200

259 Prospect Plains Road, Bldg H

Monroe Township, NJ 08831

Bracco Imaging offers a product and solution portfolio for all key diagnostic imaging modalities: X-ray Imaging (including Computed Tomography-CT, Interventional Radiology, and Cardiac Catheterization), Magnetic Resonance Imaging (MRI), Contrast Enhanced Ultrasound (CEUS), and Nuclear Medicine through radioactive tracers. The diagnostic imaging portfolio is completed by a range of medical devices and advanced administration systems for contrast imaging products.

Brainlab.....Booth #319

www.brainlab.com

Phone: 704-409-1343

5 Westbrook Corporate Center, Suite 1000

Westchester, IL 60154

Brainlab, headquartered in Munich, develops, manufactures and markets software-driven medical technology, enabling access to advanced, less invasive patient treatments. Core products center on information-guided surgery, radiosurgery, precision radiation therapy, digital operating room integration, and information and knowledge exchange. Brainlab technology powers treatments in radiosurgery and radiotherapy as well as numerous surgical fields including neurosurgery, orthopedic, ENT, CME, spine and trauma. Privately held since its formation in Munich, Germany in 1989, Brainlab has more than 9,000 systems installed in about 100 countries. Brainlab employs 1,300 people in 19 offices worldwide, including 320 Research & Development engineers, who form a crucial part of the product development team.

CorTechs, Labs, Inc..... Booth #317

www.cortechslabs.com

Phone: (858) 459-9700

4690 Executive Drive, Suite 250

San Diego, CA 92121

CorTechs Labs develops and markets breakthrough medical device solutions capable of automatically segmenting and quantifying brain structures, making quantitative analysis of MRI images of the human brain a routine part of clinical practice. CorTechs Labs' cutting-edge brain imaging analysis tools provides physicians and researchers a convenient and cost-effective means to quantify brain structures and compare results to age-and gender- matched norms, to help assess a variety of neurological conditions, such as Alzheimer's disease, epilepsy, multiple sclerosis, brain trauma, as well as, brain development. Our technology provides physicians with the objective information needed to confirm or refute a projected diagnosis.

234 W. Florida Street, Suite 205

Milwaukee, WI 53204

With over a decade of experience, NordicNeuroLab (NNL) provides products and solutions that define the field of functional MR Imaging. We understand the growing need for reliable and innovative tools in this growing field. As a result, we closely collaborate with research and clinical teams from both academic and medical centers, MR system manufacturers, and third party vendors. NNL develops and manufactures hardware and software solutions that meet the needs of experienced centers while developing training programs to make fMRI easy to adopt for more novice users. From state of the art post-processing and visualization software for BOLD, Diffusion/DTI, the art post-processing and visualization software for BOLD, Diffusion/DTI, and Perfusion/DCE imaging to fMRI hardware for audio and visual stimulation, eye tracking, and patient response collection, NNL's products are used around the world by researchers and clinicians alike. Ultimately, we are dedicated to bringing the most advanced neuro-imaging tools to market while making functional MRI programs easy to implement.

Olea Medical.....Booth #318

www.olea-medical.com
Phone: (+33) 4 4271 2420
93 Avenue des Sorbiers
13600 La Ciotat, France

Olea Medical[®], a provider of advanced MR and CT perfusion imaging post-processing, designs and markets a suite of innovative medical imaging applications, Olea Sphere[®], significantly improving diagnostic process and follow-up assessment.

The company has established a strong credibility, through the domestication of cutting-edge technology, and partnerships with leading institutions worldwide.

With proprietary Bayesian algorithms and optimization methods applied to medical imaging, today Olea Medical[®] is the recognized leader in standardized, vendor-neutral, advanced MR quantitative and qualitative imaging post-processing.

Covering both morphologic and functional imaging, Olea Medical[®] post-processing solutions bring complex mathematics into clinical practice for easy access to accurate and robust biomarkers for enhanced diagnostic confidence and response-to-treatment assessment.

Olea Medical's applications are compliant with the DICOM standard and Windows or Linus operating systems. Olea Sphere[®] runs on any standard off-the-shelf workstation or it can be used through thin deployment. It maintains the traceability of patient data, through an automatic logout mode, a totally connectivity and compatibility with LDAP and Microsoft Active Directory.
