**Purpose:** The Gold Medal is intended to foster the highest standards of the American Society of Neuroradiology, recognizing exceptional service and achievement. The Medal is awarded on the basis of both professional and personal excellence, honoring individuals who are superb neuroradiologists, scientists, and/or physicians, and who also are truly outstanding people. Recipients will have consistently extended themselves beyond self-interest to make contributions that have benefited our entire field.

**Eligible Candidates:** Individuals who are clinicians, researchers, teachers, or neuroradiological statesmen and stateswomen. Candidates are *not* required to be ASNR members. Nominees should have made extraordinary contributions to enhance the development and/or stature of neuroradiology, including service to the Society.

**Exclusions:** Current Officers of the Society, members of the Executive Committee, and members of the Gold Medal Award Committee are ineligible for nomination. The Gold Medal will *not* be awarded posthumously, unless a candidate passes away after having been selected.
