

## **Past Presidents Association**

***Chair: Pina Sanelli, MD, MPH, FACR***

ASNR is proud to establish the Past Presidents Association in 2019. Our Past Presidents are esteemed leaders who are important to recognize because they are typically our most senior members with an enormous collective wealth of knowledge, experience and history of the ASNR.

The main goal of the Past Presidents Association is to facilitate life-long engagement of the former leadership of the ASNR in continual service towards the vision and mission of the ASNR.

As such, the Past Presidents Association will:

1. Serve as a consultant group for the BOD.
2. Participate in key initiatives for the ASNR, as directed by the BOD.
3. Develop fundraising opportunities with the FASNR.
4. Mentor and engage the YPS as the future leaders.
5. Lead intersociety collaborations for ASNR, as approved by the BOD and BOT.

The ASNR will greatly benefit retaining these prior leaders, leveraging their leadership skills and national influence, to continually serve the vision and mission of the ASNR. On behalf of ASNR membership, we look forward to learning from these experienced leaders for years to come.
