RADIOLOGY DEPARTMENT

15 /JUN/2023

**Report on Anne G. Osborn ASNR International Outreach Professorship Program for
Department of Radiology, Korle Bu Teaching Hospital, Accra.
Winner and visiting Professor, Prof Majid Khan.
21st – 26th May 2023, 8 am to 4pm daily.**

I, Dr Klenam Dzefi-Tetty, the Head of the radiology department of the Korle Bu Teaching hospital, Accra; Ghana and my staff were honored to receive Prof Majid Khan as the Anne G. Osborn ASNR International Outreach visiting Professor from 21st to 26th May 2023.

Majid Khan is an Associate Professor of Radiology, Otolaryngology and Neurosurgery. He is also the Director, Non-Vascular Spine Intervention; Russell H. Morgan Department of Radiology and Radiological Science. Johns Hopkins Hospital, Division of Neuroradiology and Interventional Radiology; Sheikh Zayed Tower, Suite 7222,1800, Orleans Street Baltimore. MD 21287 USA.

He arrived in Accra, Ghana through the Kotoka International Airport on 21st May 2023 and was met on arrival by myself (Dr Klenam Dzefi-Tetty) and another colleague and was sent to the Central Hotel Ridge, located in a residential and tranquil area, close to the financial district, which is not far from the Korle Bu Teaching Hospital.

Prof Majid Khan had daily teaching sections with us from 22nd to 26th May 2023 as follows:

DATE & TIME	LECTURE TOPICS
Mon 22nd May 2023 8 am to 1:00 pm	Brain Tumor Imaging (3-part lecture which covers Imaging characteristics of all types of tumors, Advanced Tumor imaging, Tumor genetics).
2.00 – 4.00pm	Case Reviews
Tue 23rd May 2023 8 am to 1:00pm	Imaging Cystic Brain Lesions. Imaging Back pain. When and Why? Advanced Spine Imaging. Tips and Tricks?
2.00 – 4.00pm	Case Reviews
Wed 24th May 2023 8 am to 1:00 pm	Differentiating Benign from Malignant spine fractures on imaging. Spine masses, Intradural versus Extradural

2.00 – 4.00pm	Spinal CSF Leak. Diagnosis and treatment. Imaging Cystic Spine masses. Spinal augmentation techniques.
Thu 25th May 2023 8 am to 1:00 pm	Pineal Gland Masses. Spinal metastases. Diagnosis and Treatment, comprehensive review
2.00 – 4.00pm	Case Reviews
Fri 26th May 2023 8 am to 1:00 pm	Larynx Imaging Extra laryngeal neck Imaging Tinnitus imaging
2.00 – 4.00pm	Case Reviews

The physical meetings began on time, included about 40 residents and some specialist radiologists. The physical meetings were held as hybrid (virtually) this enabled neurosurgeons, ENT surgeons, other radiology residents in Ghana and other doctors to participate. This brought the virtual attendees to about 100.

Prof Majid Khan also had the opportunity to interact with residents and specialists at our work stations and discussed difficult cases (MRI and CT) with us.

We had the opportunity to ask many questions including the possibility of having a collaboration with the Radiology Department at John Hopkins.

As a result of his visit we are trying to develop some new protocols. Our reports have also been modified example is that i have included the Spine Instability Neoplastic Score (SINS) he mentioned during one of his lectures in our template and even pasted it in the reading room of our work stations.

The overall feedback from residents and colleagues is great and his departure was very difficult for us. Most residents have developed interest in neuroradiology.

Prof Khan was able to tolerate our local dishes and he enjoyed them. He is down to earth and mingled well with all the staff during the short visit.

On the final day, which was his departure day and a Friday, we gave him a token (a Ghanaian shirt) which is made from Ghanaian fabric and worn on Fridays.

I want to thank Prof Majid Khan and the Anne G. Osborn ASNR International Outreach Committee for making this a reality.

Attached are a few memories (pictures) of his visit.

RADIOLOGY DEPARTMENT - KORLE BU TEACHING HOSPITAL
