

Reza Forghani, MD, PhD

ASNR (American Society of Neuroradiology) International Outreach Professorship to Argentina - Annual Meeting of the Argentinian Radiological Society

I am honored to have served as the 2024–2025 Anne G. Osborn ASNR International Outreach Professor at the Annual Meeting of the Argentinian Radiological Society in Buenos Aires last week. I had the privilege of presenting on topics spanning AI in radiology, dual-energy and photon-counting CT, skull base imaging, and CSF leak evaluation. Many thanks to the ASNR and the Argentinian Radiological Society for this opportunity, and to my Argentinian colleagues for their warm hospitality and truly excellent scientific program.
